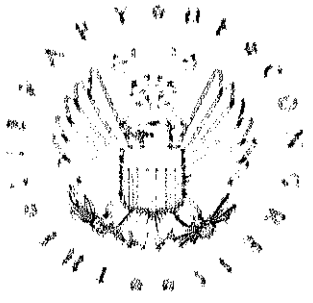
Monthly Index
of
Russian Accessions



Volume 11, No. 11

February 1959

THE LIBRARY OF CONGRESS
WASHINGTON : 1959

INTRODUCTORY NOTE

The MONTHLY INDEX OF RUSSIAN ACCESSIONS* is a record of the publications in the Russian language issued in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages spoken in the Soviet Union are also included. However, publications in the languages of the U. S. S. R. issued in countries of Eastern Europe are not included, since they are covered by the *East European Accessions Index*.

The MONTHLY INDEX consists of three parts. Part A lists monographic literature, but no accessions published earlier than 1945 are included. To facilitate the use of this INDEX by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets.

Part B lists Russian periodicals with their tables of contents translated into English. However, accessions printed earlier than 1947 are not included.

Part C is a subject guide to both the monographs and periodical articles listed in Parts A and B. Monographs are listed under the appropriate subject headings first, followed by the periodical articles. For the convenience of readers desiring to examine only monographs or periodical articles, the monographs are printed in slightly heavier type than the periodical articles. The titles of monographs are given both in the original language and in English translation, whereas titles of periodical articles are given in English translation only. In citing periodical articles the following abbreviations are used for the months of the year:

Ja	January	My	May	S	September
F	February	Je	June	O	October
Mr	March	Jl	July	N	November
Ap	April	Ag	August	D	December

Sample title: Electric action of the brain in glaucoma. L.S.Levina, G.M.Neishtadt. Vest.oft, 30 no.5:8-12 S-O '51.

Explanation: An article with title given above in English translation, written by L. S. Levina and G. M. Neishtadt, will be found in the September-October 1951 issue of *Vestnik oftalmologii*, vol. 30, no. 5, pages 8-12.

A list of periodicals included in the current issue, with abbreviations used, is given at the beginning of Part C in each issue of the INDEX. The number and letter in parentheses following each periodical title indicate the class and subclass in which it is to be found in Part B. Cumulative lists of periodicals included in the current volume appear in numbers 6 and 12 of that volume. These lists are arranged by subject; the symbols of American libraries other than the Library of Congress, known to have current files of such periodicals, follow each title.

Except in Part C, the material is divided into 17 subject classes and is arranged alphabetically within each class. In addition, for the convenience of the reader, the serials listed in Part B are divided within each subject class into several subclasses. All entries are transliterated according to the usual Library of Congress system except that ligatures are omitted. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that at the time of receipt the material was available in another library but not in the Library of Congress.

Cumulative author, subject, and periodical location indexes to the first four volumes of the MONTHLY INDEX are available as separate publications. Beginning with Volume 5, an author index to the monographs, and a periodical location index for the entire volume are furnished as appendices to the first two issues of the following volume.

Orders for microfilm or photostat copies of the listed items that are in the collections of the Library of Congress may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY INDEX OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price of single copies varies; subscription price, $12.00 a year domestic, $15.00 a year foreign. Price of Cumulative Index to Volumes 1-3, $1.50; to Volume 4, $0.60.

The Library of Congress catalog card for this publication is shown on the inside back cover

AGE

Age changes in the electrocolloidal properties of cell protoplasm of fundal gastric mucosa in rabbits kept on different feed rations. M. P. Volovik, T. T. Kebadze. Uch. zap. KHGU 79:43-53 '57.

Age characteristics of conditioned reflex activity in horses. I. D. Manakov. Uch. zap. KHGU 79:67-74 '57.

Age characteristics of fasting metabolism. O. P. Silin. Uch. zap. KHGU 53:215-229 '54.

Age characteristics of the intake and output water in the animal organism. T. A. Filippova. Uch. zap. KHGU 53:231-243 '54.

Age-induced disorders in oxidative phosphorylation. O. P. Silin. Uch. zap. KHGU 68:51-57 '56.

Age-induced histophysiological changes in the endocrine glands of rabbits kept on different feed rations. A. V. Rudaeva. Uch. zap. KHGU 79:23-42 '57.

Biochemical nature of the decrease in the rate of protein synthesis in animal organisms. Report No. 1: Ontogenetic variations in the utilization of energy liberated by high-energy phosphates (ATP) in the synthesis of the peptide linkage (formation of glutamine from the glutamic acid and ammonium salts). V. N. Nikitin, R. I. Golubitskaia. Uch. zap. KHGU 53:113-129 '54.

Changes in the composition of liver tissues in young animals under conditions of regenerative and "excited" synthesis. N. M. Novikova. Uch. zap. KHGU 68:21-33 '56.

Changes in the respiration of the whole organism and different organs induced by photodynamic substances at various stages of the individual development. E. A. Sazonova. Uch. zap. KHGU 53:189-194 '54.

Changes with age in oxidative phosphorylation. I. N. Bulankin, E. V. Parina. Uch. zap. KHGU 53:135-141 '54.

Changes with age in oxidative phosphorylation of the brain. E. V. Parina, E. B. Sopotsinskaia. Uch. zap. KHGU 68:43-49 '56.

Changes with age in the adenosinetriphosphatase activity of brain tissues. V. N. Nikitin, R. I. Golubitskaia. Uch. zap. KHGU 53:143-151 '54.

Changes with age in the biochemism of denervated organs. Report No. 1: Changes with age in some biochemical indices of striated muscles following denervation and tenotomy. V. N. Nikitin and others. Uch. zap. KHGU 68:79-99 '56.

Changes with age in the biochemism of denervated organs. Report No. 2: Changes with age in some biochemical indices of the liver following denervation. V. N. Nikitin and others. Uch. zap. KHGU 68:101-116 '56.

Changes with age in the intake and output of water at high environmental temperatures. T. A. Filippova. Uch. zap. KHGU 68:183-192 '56.

Changes with age in the level of oxidation processes in different organs. E. A. Sazonova. Uch. zap. KHGU 53:195-198 '54.

Changes with age in the liponucleoprotein complex of liver and brain tissues. I. N. Bulankin and others. Uch. zap. KHGU 53:87-98 '54.

Changes with age in the protein composition of muscular tissue. E. F. Sergienko, TS. M. Shereshevskaia. Uch. zap. KHGU 53:131-134 '54.

Changes with age in the reticulocyte count and the osmotic resistance of erythrocytes. V. N. Nikitin and others. Uch. zap. KHGU 68:215-220 '56.

Changes with age in the ribonuclease activity of tissues. L. I. Stavitskaia. Uch. zap. KHGU 68:59-63 '56.

Effect of the addition of certain hydrogen donors on reduction processes in tissues at various ages. A. A. Rubanovskaia, V. K. Stepanchenko. Uch. zap. KHGU 53:207-213 '54.

Glycogen of the choroid plexus and age factor in the chemical composition of the cerebrospinal fluid [with summary in English]. V. R. Purin. Vop. med. khim. 4 no. 5:345-350 S-O '58.

Higher nervous activity in its ontogenetic development. A. V. Nagornyi. Uch. zap. KHGU 53:17-27 '54.

Metabolic changes with age under conditions of excited synthesis. I. N. Bulankin and others. Uch. zap. KHGU 84:5-20 '56.

Nature of "age-induced" changes in the proteins of yeast cultures. Zh. A. Medvedev. Uch. zap. KHGU 68:65-78 '56.

Qualitative variations of ribonucleic acid in the liver of animals at various age (relation between phosphorus and pentose). I. N. Bulankin, E. V. Parina. Uch. zap. KHGU 68:35-41 '56.

Reducing ability of tissues at various ages. A. A. Rubanovskaia, I. Maevskaia. Uch. zap. KHGU 53:199-205 '54.

Resistance of white mice to coniine in various periods of postnatal development. A. V. Nalegatskaia. Farm. i toks. 21 no. 5:85-86 S-O '58.

Some biochemical foundations of ontogenetic processes. V. N. Nikitin. Uch. zap. KHGU 53:29-71 '54.

AGE AND EMPLOYMENT

Uncalled-for offense. M. Granovskaia. Part. zhizn' no. 21:55 N '58.

AGGLUTINATION

Specificity of the agglutination of virus-coated bacteria in patients with epidemic hepatitis. G. V. Skolubovich. Trudy LSGMI 45:114-123 '58.

AGGLUTININS

Effect of the conditioned reflex mechanism on changes in the agglutinin titer. V. M. Andreevskii, T. S. Dvoretskii. Trudy LSGMI 45:56-60 '58.

AGGREGATES

Proving the homeomorphism of polyhedra and point sets. I. Shvedov. Dokl. AN SSSR 122 no. 4:566-569 O '58.

AGRANULOCYTOSIS

Significance of agranulocytosis in surgical practice. T. V. Shaak. Vest. khir. 81 no. 10:123-126 O '58.
